

HP Pocket Whiteboard

Create an interactive whiteboard
wherever you go.

Put down your pen and pick up the future

The HP Pocket Whiteboard is the next generation in interactive technology products, perfect for the classroom or the boardroom. The small, lightweight tool lets you take the functionality of a standard digital white board and project it onto any surface to add interactivity to any class or meeting.

Capture ideas in real time

Learning and great ideas occur in real time, and the HP Pocket Whiteboard lets you capture them as they happen. Use the Pocket Whiteboard with a PC on the surface of your choice—navigate, create and interact using your favorite computer applications. The receiver can be used on magnetic or non-magnetic surfaces by the use of adhesive metal mounts which are included. Quick and easy calibration for any new surface area or size is a snap.

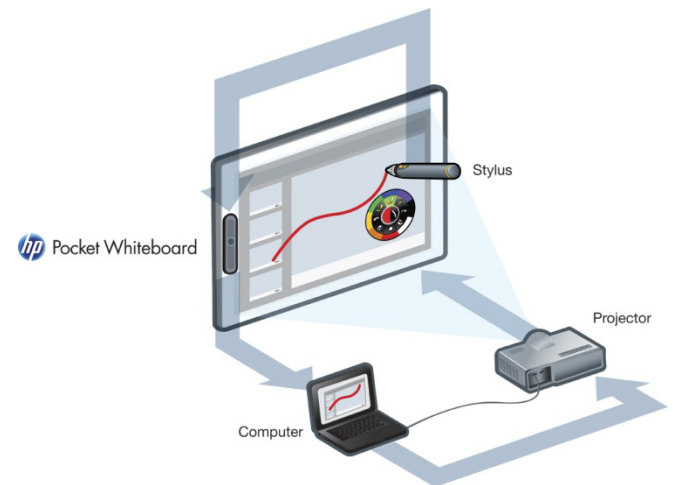

All the tools you need

Take advantage of the impressive range of tools available with the included software. Import multimedia including interactive Flash files, and select from a range of tools available online. The HP Pocket Whiteboard can also interact with anything projected including the web or other content you may choose.

Everything you need—wherever you need to be

No matter where you are, the HP Pocket Whiteboard lets you add interactivity to any classroom or meeting:

- Compact size and weight let you take it almost anywhere
- Attaches easily along any edge of a board or surface
- Projects onto a surface area of up to 9 x 5 ft (2.7 x 1.5 m)
- Encourages collaboration with free and secure network sharing
- Provides integration with Microsoft® PowerPoint®
- Activates an area large enough to accommodate most projected images
- Installation and set-up is flexible and easy
- Fun and intuitive user interface
