Mac mini

Mac mini has now up to 5X faster graphics with the NVIDIA GeForce 9400M, and yet is the world's most energy efficient desktop computer. All models include Mini DisplayPort or DVI out, FireWire 800, 5 USB 2.0 ports, and 802.11n WiFi. Mac OS X Leopard, iLife '09, and more are included. For more detailed information, please refer to product data sheets or the Mac mini web site (<http://www.apple.com/macmini>). Display, keyboard, and mouse are sold separately.

Note: All Mac mini orders must be in multiples of 4 per part number.

Mac Pro - Intel

Nearly twice as fast as before, the new Mac Pro is based on next-generation Quad-Core Intel Xeon "Nehalem" processors and a high-performance system architecture. Featuring 8MB of fully-shared L3 cache and an integrated memory controller with three channels of 1066MHz DDR3 memory for greater memory bandwidth and lower memory latency. The Mac Pro is available in both quad-core and 8-core configuration be configured (via Configure-to-Order online ordering, CTO) with processors up to 2.93GHz. Quad-core Mac Pro systems start with 3GB memory and support up to 8GB, while 8-core systems begin with 6GB and support up to 32GB of memory. All new graphics cards are from both ATI and NVIDIA, starting with the high-performance NVIDIA GeForce GT 120 with 512MB of GDDR3 memory and a Mini DisplayPort and dual-link DVI port. For faster graphics performance, the ATI Radeon HD 4870 is available with 512MB of GDDR5 memory. The redesigned interior makes it even easier to add memory, expansion cards, and hard drives. All Mac Pro systems feature four 3.5" hard drives with cable-free direct-attach drive carriers. Included is a 640GB Serial ATA 3Gb/s 7200-rpm hard drive, and the system is configurable with 4TB of internal storage. The all-new optional Mac Pro RAID card adds added data protection and performance when configured with multiple hard drives. A 18x SuperDrive with double-layer support (DVD±R DL/DVD±RW/CD-RW) is standard in all systems, and Mac Pro can be configured with up to two 18x SuperDrive optical drives. All systems include a double-wide PCI Express 2.0 graphics slot and three full PCI Express 2.0 expansion slots. Bluetooth 2.1+EDR is standard for connection to a wireless keyboard, mouse or other Bluetooth enabled devices. All Mac Pro systems also include: four FireWire 800 ports and five USB 2.0 ports. Networking includes two Gigabit Ethernet ports, and optional internal AirPort Extreme Wi-Fi card with 802.11n. Audio support includes optical digital input/output, analog line-level input/output, front headphone minijack, and speaker. Software includes Mac OS X and iLife.

Also included are an Apple Keyboard with numeric keypad, Mighty Mouse, USB keyboard extension cable, and power cord. Service and support is 90 days of toll-free telephone support and one-year limited warranty. For more detailed information, please refer to the Mac Pro web site (<http://www.apple.com/macpro>)

iPod shuffle

The new iPod shuffle is jaw-droppingly small, with the controls on the earbud cord. But perhaps most impressive, the new VoiceOver feature tells you what song is playing, who's performing it, and the names of your playlists, too. And with 4GB of storage, it holds up to 1,000 songs. iPod shuffle supports any Mac with USB 2.0 and Mac OS 10.4.11 or later or any PC with USB 2.0 and Windows Vista or Windows XP Home or Professional or later. Broadband internet required. iTunes 8.1 or later required.

Airport

MB765AM/A	Time Capsule 1TB (Simultaneous Dual-band 802.11n Wi-Fi)
MB996AM/A	Time Capsule 2TB (Simultaneous Dual-band 802.11n Wi-Fi) Time Capsule is a Wi-Fi hard drive and AirPort Extreme Base Station that lets users wirelessly back up and protect everything on a Mac desktop or notebook. It works seamlessly with Mac OS X Leopard's Time Machine software so users can setup automatic, wireless back-up for every Mac in their home, small-business, or school to one Time Capsule with just a few clicks.
MB763AM/A	AirPort Extreme Base Station
MB321AM/A	AirPort Express Base Station 802.11n Wi-Fi wireless access point, 1 Ethernet port to connect to a DSL or cable modem or local Ethernet network, one USB port to share a printer wirelessly, and one 3.5 mm audio jack that supports both analog and digital optical sound. With AirPort Express it is possible to play iTunes music over a wireless network to a stereo or powered speakers using AirTunes. AirPort Express supports both Mac and PC. AirPort Express has a built-in power supply and uses the standard Apple duck heads to plug into a power source. Minimum system requirements to run the software: Mac OS X v10.4 (Tiger), Mac OS X v10.5 (Leopard), Windows XP, and Windows Vista. Minimum requirements to access the wireless network are: an AirPort or AirPort-Extreme enabled Macintosh, or 802.11b/g or 802.11n draft 2.0 wireless PC or Wi-Fi device. Product ships with an AirPort Express and power adapter for local use. The AirPort Express Base Station is based on an IEEE 802.11n draft specification.
M9573LL/A	AirPort Express Stereo Connection Kit with Monster cables Includes AirPort Express power extension cable with local power adapter (1.87 m), mini stereo to dual RCA Monster cable (2 m), and mini optical digital to digital Toslink Monster cable (2 m)
M9479LL/A	Airport Extreme Power Adapter

AppleCare Protection Plan

The AppleCare Protection Plan, a comprehensive service and support program, extends telephone support from 90 days to up to three years and adds two-years of hardware repair coverage to the one-year warranty. It also includes powerful diagnostic tools (TechTool Deluxe from Micromat) and provides dedicated access to web-based support resources. The AppleCare Protection Plan terms and conditions are available on Apple's website.

AppleCare Premium Service and Support Plan

The AppleCare Premium Service and Support Plan provides 3 years of up-and-running email and telephone support and onsite hardware service when purchased with Xserve. If your Xserve goes down, Apple's technical support experts will work to get your system up and running quickly. The plan includes: 24/7 up-and-running email and phone support with 30 minute response time, and 4 hour onsite response for hardware repairs during business hours, and next day onsite response for hardware repairs after business hours. Onsite response time and availability of onsite service depend on your location. For details about the AppleCare Premium Service and Support Plan, including availability of onsite service in your area, visit www.apple.com/ca/support/products/premium

M8830LL/C AppleCare Premium Service and Support Plan - Enrollment Kit for Xserve

Mac OS X Server Software Support Products

Mac OS X Server Software Support delivers consultative phone and email support for advanced server operation, migration and integration issues. All three plans provide support for technical issues that require the use of command-line tools for resolution. Whether you have questions or you need assistance on a regular basis, Apple has a plan to fit your requirements. Each plan provides up to one year of coverage. Each plan also includes AppleCare Help Desk Support and a single copy of AppleCare Help Desk Tools. AppleCare Help Desk Support provides each designated contact an unlimited number of support incidents for software installation, launch, and use; hardware and software diagnostic troubleshooting; and issue isolation for Apple-based solutions. In addition, each of your designated contacts will have access to Apple's professional online support resources, including private and monitored discussion boards, online updates of the latest tools and software and prompt email notification of Apple technical issues. AppleCare Help Desk Tools provides a library of Mac OS installation and hardware diagnostics discs that is updated quarterly.

AppleCare Service Parts Kits for Xserve and Xserve RAID

To minimize downtime, purchase both the AppleCare Service Parts Kit for Xserve or Xserve RAID and an AppleCare Premium Service Support Plan. When you combine an AppleCare Service Parts Kit with the AppleCare Premium Service and Support Plan, Apple experts help you troubleshoot and fix your system right over the phone, day or night, so you won't have to wait for a technician. Xserve and Xserve RAID are designed for quick and easy swapping of crucial parts; no special training or certification is required. AppleCare Service Parts you keep key modules handy to address the most common hardware failures and the AppleCare Premium Service and Support Plan provide support you need to get up and running quickly. AppleCare Service Parts Kits for Xserve include a logic board, a power supply, a fan array and a PCI Fan. AppleCare Service Parts Kits for Xserve RAID include a RAID controller module, a power supply, a cooling module and an A Module. It is recommended that customers buy one kit for up to ten systems purchased.

MB846G/A AppleCare Service Parts Kit for Xserve (early 2009)

AppleCare Professional Support

MB038ZM/C AppleCare Help Desk Tools
An annual subscription to a comprehensive set of diagnostic tools, operating system software CDs, and access to the AppleCare Technician Training website. This product also provides access to a special web site for technical information and software downloads.

MB039ZM/C AppleCare Help Desk Support
Provides a year of access to online technical resources and one set of Macintosh diagnostic disc. No updates are provided after point of purchase.

MA698ZM/C AppleCare Professional Video SupportLine
Provides one year of telephone and email support for Apple's professional video applications. Does not include support for Shake or Logic. Each agreement provides unlimited support incidents for one contact, 12 hours a day, 7 days a week.

AppleCare Technician Training

MA714Z/A AppleCare Technician Training
AppleCare Technician Training offers you the knowledge you need to pass the AppleCare Service Certification Exams. Its courses cover as general computer terminology, Apple specific computer architectures, Mac troubleshooting and preventive maintenance, and Apple TechConnect training materials, diagnostic tools, and extensive information from Apple's own technical library."

AppleCare Xsan Support

M9754ZM/B AppleCare Xsan Support
AppleCare Xsan Support provides a year of telephone support and email support for Xsan and Raid Admin software. Customers may contact Apple 24x7. Troubleshooting for Apple hardware running Xsan is included, as is troubleshooting for Apple-qualified 3rd party. Support must be purchased for each copy of Xsan in customer's network.

Alberta Advance Disposal Surcharge

Alberta's Electronics Recycling Program - Advanced Disposal Surcharge (ADS)
Beginning February 1, 2005, all suppliers are required to begin collecting a recycling fee, the Advance Disposal Surcharge (ADS), from the sale of new desktop computers and related equipment.

NOTE: It is important that you select the appropriate recycling fee at time of ordering as it may delay the processing of your order. Apple reserves the right to charge the Alberta recycling fee in the event that the customer does not incorporate the fee on their order.

For more information please go to www.albertarecycling.com
